Soft Skills: *Software Training, Leadership/Management, Microsoft or Mac environments, Certified SME in Outlook 2013, problem-solving troubleshooting, analyzing information, excellent written or verbal communication.*

Projects

University of New Hampshire – Portsmouth, NH. June 2019 – Present *(6 month Bootcamp program)*
Full Stack Development Bootcamp Honors Student
Professional Development and Training Bootcamp offered by UNH. Graduation in early December 2019.
A 24-week intensive program focused on gaining technical programming skills in HTML5, CSS3, Javascript, JQuery, Bootstrap, Firebase, Node Js, MySQL, MongoDB, Express, Handelbars.js & ReactJS.
Achievements:
- Graduating with an A average for consistently meeting deadlines and specifications on numerous assignments and group Projects.
- Fostered a passion to be a lifelong learner along with the drive and the skills needed to be successful as a software engineer and a positive team member with the potential to develop into an industry and community leader in time.
- Numerous activities and assignments completed to specifications.

Group Project 1: Super Search || https://github.com/Jmuniak/GroupProject1
Summary: Super Search is a mobile app and web app that dynamically looks for movies based on a title search, returns information on whether or not they are available for streaming and on which platform like Netflix, Hulu, etc. It is also a great way to find new movies with similar titles that you might not have even known about to help inspire your entertainment time.
- Assigned and excelled in the role of Team Lead on the project, organized the group, gave the inspiration for the application, Full Stack Engineer contributing to both front and back end code, maintained the master branch in the git repo, and Presenter for the group project.
- Technologies used included HTML, CSS, JavaScript, Materialize, AJAX API requests, CORS (cross-origin resource sharing), Postman, and this was deployed using GitHub Pages.

Group Project 2: Valhalla || https://github.com/Jmuniak/GroupProject2
Summary: Valhalla is a mobile app and web app that allows the user instant access to all their D&D characters in a responsive interface. It stores your characters "in the cloud", hence the name Valhalla, to protect them from ever being lost. Campaign, convention, meetup - no matter where, you can share and play all your characters with other D&D players.
- Full Stack Engineer contributing to front and back end code, mobile responsive engineer, and Presenter for the group project.
- Technologies used included HTML, CSS, JavaScript, jQuery, EJS, Bootstrap, Node.JS, MYSQL, Express.js, Sequelize, AWS (Amazon Web Server), bcrypt, User Authentication with Passport.

Professional Experience

Certify, INC. – Portland, ME. January 2018 – July 2019 *(1 year, 6 months)*
Talent Acquisition Partner
Named one of the Best Places to Work in 2015, 2016, 2017 & 2018 Certify is disrupting the world of expense management with a simple and innovative cloud-based solution that's scalable for companies of every size and industry.
- As a Talent Acquisition Partner in Portland, ME HQ, reporting directly to the Chief People Officer of the combined brands. My role was to drive employer branding and the entire candidate pipeline, for all open job requisitions, across 3 brands, for international offices located throughout the US, Canada and in the UK. Demonstrated the highest level of customer service and courtesy for each candidate in the process.

- Implemented a new ATS software, created all templates and SOPs. My skills combined with my leadership's support enabled the creation of new best practices that have been successful in elevating the candidate experience and employer brand in meaningful ways.
- Other accomplishments while in this role: Single-handedly filled more positions than anyone in the company's history, key partner in the launch of Certify's U.K. location in London, large emphasis on Employer Branding initiatives such as reforming internal interview templates, increasing the Glass Door Rating, recipient of a Propel Initiate Award, involvement with local university alumni such as sponsoring Women in Leadership.

Mountain, LTD. – New Gloucester, ME. September 2015 – December 2017 *(2 years, 4 months)*
Telecommunications Recruiter / IT Administrator
- Full cycle agency recruitment within the Telecom Engineering and IT industry sectors specifically with a variety of positions under those umbrellas in several varied geographic locations that would often add additional challenges.
- Exceeded expected Revenue goal of $575,000 by more than $550,000 in the first year, over double the goal. This demonstrated an invaluable ability to learn quickly and hit the ground running while juggling additional responsibilities on the side such as training new hires and the IT Administrator duties shown below.
- IT Administrator duties in addition to regular Recruiting duties for over a year and a half, until they had the approval to hire a full-timer for these duties. Upon hire, I was immediately recognized as the "go-to person" for a resolution to technical issues around the office. IT duties, ranged from: setting up new computers/workstations, responding to general support requests, utilizing a remote desktop connection to access workstations nationwide, creating new users in the active directory, etc. all in addition to day to day recruiting activities. As the Outlook 2013 SME for Mountain, LTD. I trained all new employees on the use of Outlook 2013 with a self-made PowerPoint.

InterSpec, INC. – South Portland, ME. May 2015 – September 2015 *(5 months)*
Sales Engineer
- Hunted in a 100% new business B2B SaaS environment through B2B prospecting to sell the SaaS solution of an Architectural Software Developer called InterSpec into C-Level Executives, Principals, and Business Owners within the Architectural industry.
- Successfully created my own pipeline through prospecting methods within general industry research, LinkedIn, and Salesforce.

Advanced Enterprises INC. – Westbrook, ME. March 2014 – April 2015 *(1 year 2 months)*
Independent Sales Associate
- Top Performing Salesman: achieved the RTS *(road to success)* award among other achievements such as winning an all-expense paid weekend trip with the other top performing sales and management members of the organization.

Education
- Full Stack Development Bootcamp - The University of New Hampshire *(Graduation in Dec 2019)*
- CS50 (Computer Science) - Harvard University Online *(Completion in early 2020)*
- Python Bootcamp 'Zero to Hero' - Udemy.com courses *(Completion in early 2020)*
- VTEC Training in Portland, ME. - Microsoft Outlook SME Training *(Completed)*
- State of ME Department of Professional & Financial Regulation, Bureau of Insurance - Life & Health Insurance Certification *(Expired)*

Volunteering
- Maine Boys to Men Leadership Program - R.S.V.P. *(Reducing Sexism and Violence Program)*
- Mentor, and Student Program Board at Freeport High School

Other Activities and Interests
- Built a top end Gaming PC successfully with no supervision as an independent project to learn more about A+ certifications.
- Woodworking and carpentry. Model building, aircraft models, other technical models.
- Aviation beginning at the age of 10: Successfully took off, flew and landed multiple single engine prop planes under the direct supervision of a Licensed Flight Instructor at various small airstrips in Maine.
